Driver Specification

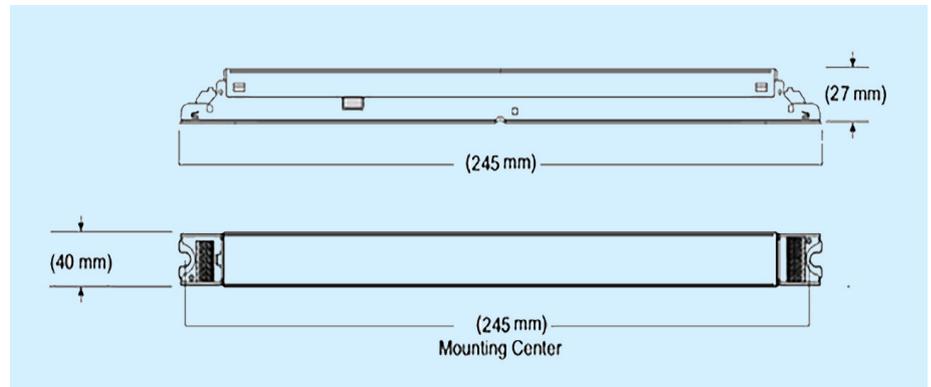

Model:	TEMPUS CSV-LED
Input Voltage:	AC85-265V 50-60Hz
Output Voltage:	DC 230V
Power For:	5-20W LED Lamps
Battery:	11.1V 2600mAh
Battery Duration:	60-180mins

LED Emergency Kit

The TEMPUS CSV-LED range of LED emergency modules has been designed to enable conversion of general lighting for emergency operations. Suitable for operation with DC powered driver and T5 - T8 LED tubes.

CSV-LED provides emergency power for the LED lights to illuminate the egress route during a power outage. The simple wiring and enclosed driver battery combination allow the unit to be simply installed to operate various LED products in emergency mode.
